

Name: V.S.K.Ashish

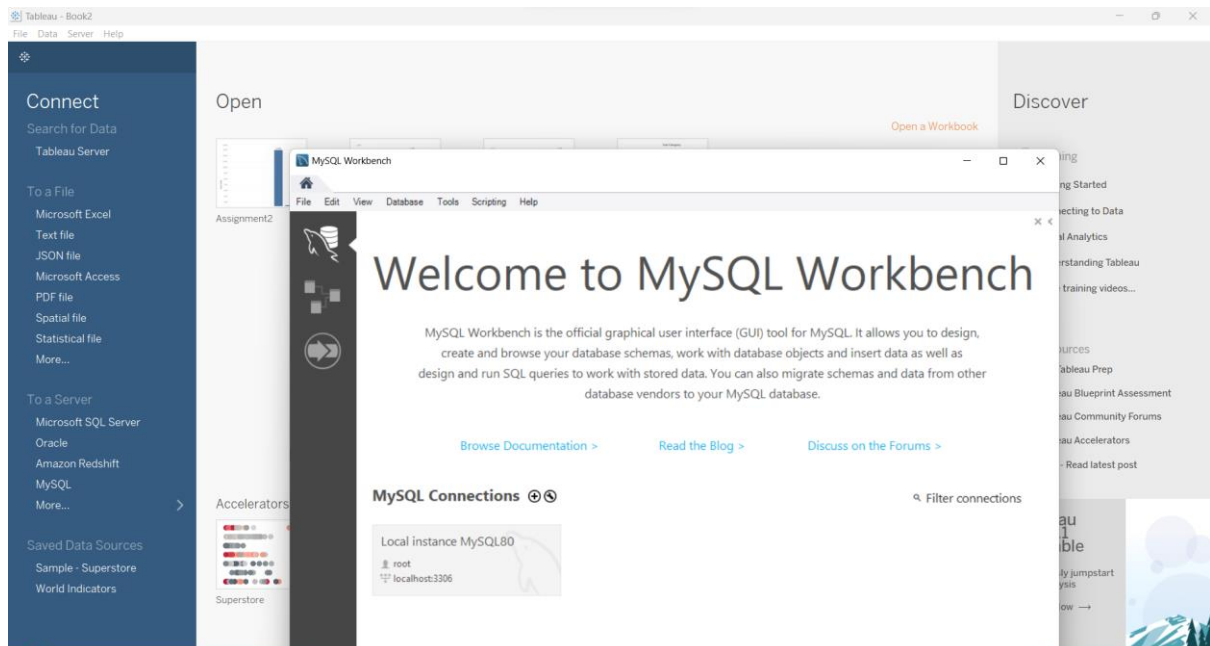

Regno:20BCE2464

Course: Data Analytics

Group: CSE

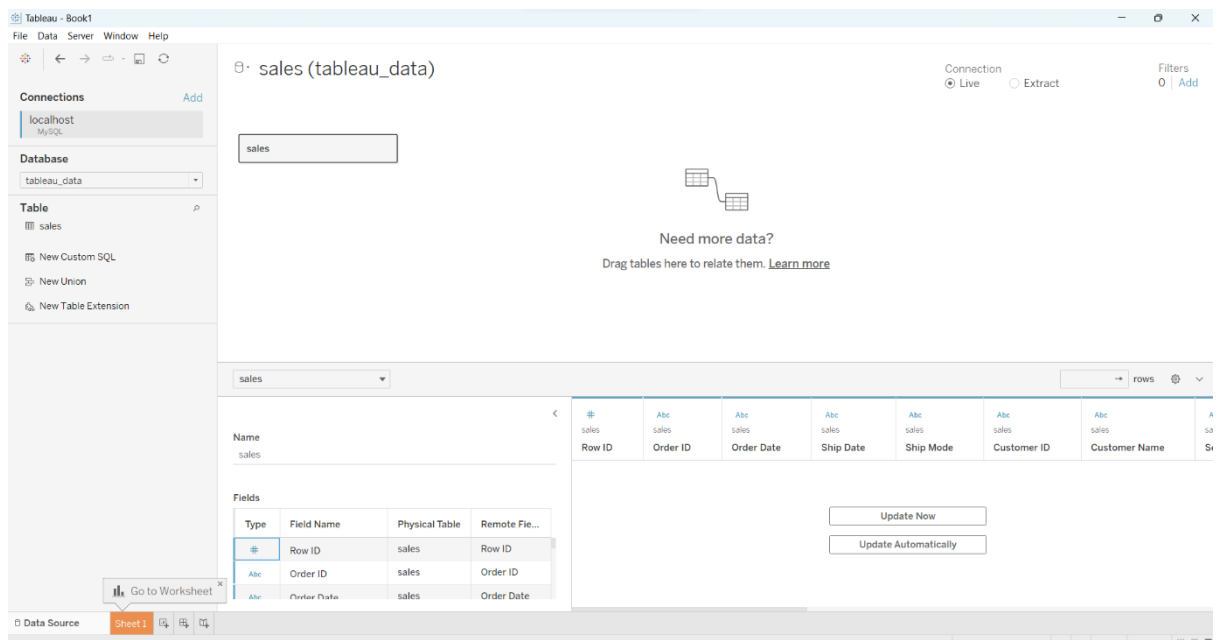

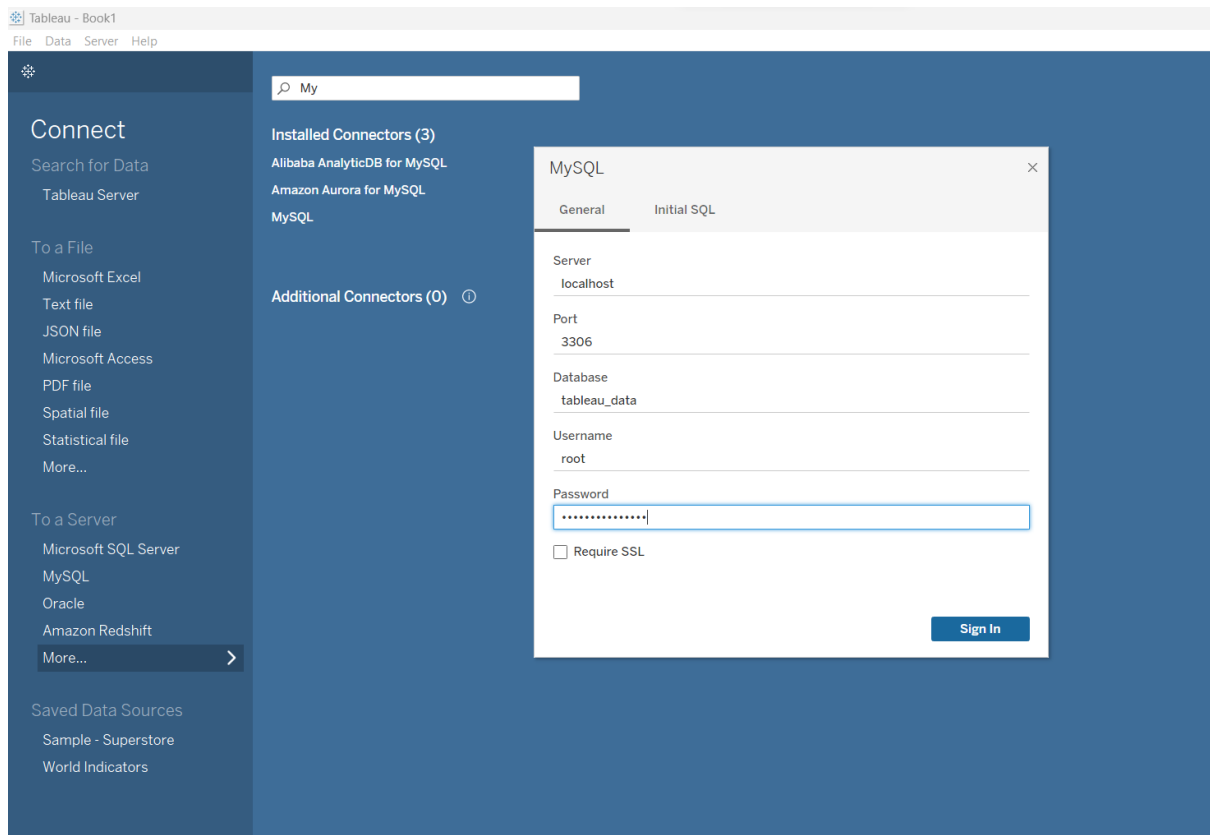

## Assignment -1

1) Download tableau desktop & MySQL in your PC or laptop.

The screenshot shows the MySQL Workbench interface. A 'Table Data Import' dialog box is open, displaying 'Import Results'. The results indicate that the file 'C:\Users\Ashish\Downloads\Sample - Superstore.csv' was imported into the 'tableau\_data' table, creating the table and importing 138 records. The background shows the MySQL Workbench interface with the 'Schemas' tab selected, displaying the 'tableau\_data' schema. The 'Query' tab is also visible, showing a query that selects all data from the 'sales' table.

### 3) Connect your Mysql and Tableau

#### 4) Create the below 5 charts/plots

- Bar chart
- Tree map
- Heatmap
- Pie chart
- Horizontal bar chart
